

\$USD (UpSideDown)

by Daniel Paul Work c2020 (ASCAP/Work Production Studios)

Hey world; we're upside down (upside down)
Hey, hey world (upside down)
They don't seem, seem to care (upside down)
They don't seem to care

Hold onto your hat it's an upside down world
Take it to the streets, let em know how you feel
Hold onto your hat it's an upside down world, upside down world, upside down world

Get up, get out, time to shout
Don't be a loser, don't be a loser
Millionaires, no billionaires, they don't speak for me

Hold onto your hat it's an upside down world
Take it to the streets, let em know how you feel
Hold onto your hat it's an upside down world, upside down

Peacefully take, take to the streets
No need for guns, not even one

Hold onto your hat it's an upside down world, upside down world, upside down world

Hey world (upside down)
We're upside down (upside down)
Hey, hey world (upside down)
They don't seem, seem to care (upside down)
They don't seem to care

Hold onto your hat it's an upside down world
Take it to the streets, let em know how you feel
Hold onto your hat it's an upside down world, upside down world, upside down world

Get up, get out, time to shout
No one to vote for, no one to vote for
Millionaires, no billionaires

instrumental break

Hold onto your hat it's an upside down world
Take it to the streets, let em know how you feel (vamp)

It's is an upside down world
